## FEDERATION OF LABOR INDORSES PLUMB PLAN

**SOLDIER'S BODY IS  
FOUND FEW MILES  
FROM WHERE MRS.  
MOSS WAS KILLED**

Private Powers Had Been Shot  
Through Head With an  
Army Pistol.

**TWO DEATH WEAPONS  
WERE SAME CALIBRE**

Chicago Is Being Combed in Effort  
to Apprehend the  
Murderer.

(International News Service.)  
CAMP GRANT, Ill., June 17.—  
With a bullet hole through his head,  
the body of Private Cecil Powers, stationed  
near Camp Grant, was found at a point 7 miles from the scene of  
the slaying of Mrs. Maude Lucile  
Moss on Tuesday.

Beside the body were found notes to  
his parents and a .45 calibre army  
pistol, the same type of weapon used  
in the killing of Mrs. Moss.  
An investigation has been started  
to determine whether the supposed  
suicide of the soldier has any bearing  
on Mrs. Moss' death.

**CHICAGO IS COMBED**  
(International News Service.)  
CHICAGO, June 17.—Scores of  
military intelligence operatives, aided  
by local police, are combing Chicago  
for traces of the slayer of Mrs.  
Maude Lucile Moss, killed Tuesday  
night, while riding with her husband  
and some friends near Camp Grant.

### CITY BRIEFS

Ground will be broken soon for the  
beautiful residence to be erected by  
Mrs. S. S. Broadnax. The building  
will be of brick and very much on  
the order of the Simpson home. The  
home will be at the same place as  
the present Broadnax home.

The new residence being built near  
the C. E. Elliott home is the enter-  
prising work of Mr. McCord, a local  
contractor. He intends to relieve the  
home situation as soon as possible.

All curbing have been laid on  
Sixth Avenue starting at Walnut  
street and ending at Grant. The  
work will be resumed as soon as possible.

The Albany drug stores do not stop  
with their service to the public on the  
inside but even place benches on the  
outside of the buildings to let the  
tired pedestrian enjoy a few moments  
on his way home.

No bath houses adorn the banks of  
Tennessee this summer. Those who  
worked hard last summer to accom-  
plish things needed for the bath's  
comfort this year were poorly paid  
for their efforts. The waters rose in  
a flood and the houses passed on down  
the stream to another river port.

The building next to the Hughes and  
Tidwell was house is rapidly climbing  
heavenward. The project was  
put through by B. L. Malone.

All the local hotels are filled to capacity  
now and there is no room for  
anyone else at present. The Lyons  
addition will improve conditions a  
good deal.

The Twin City Bread Co. has  
finished their installment of the new  
bread wrapping machine and have an  
all round modern plant that would  
do justice to any city.

The Tennessee Valley Broom works  
is having to enlarge their building  
to twice its size to be able to take  
care of the business.

### The Turkish Treaty May Be Withdrawn

(International News Service.)  
LONDON, June 17.—The allies are  
considering the advisability of with-  
drawing the Turkish treaty as the  
result of protests of Grand Vizier Dam-  
ad Pasha, the Daily Mail stated to-  
day. The Turkish treaty is the only  
one remaining to be signed.

## GOMPERS DEFEATED FOR THE FIRST TIME

*Bitter Fight Before the American Federa-  
tion of Labor Over Railroad  
Control.*

MONTREAL, June 17.—The American Federation of Labor today en-  
dorsed government ownership of railroads with democratic control. This is  
the main principle underlying the Plumb plan. The endorsement was one of  
the biggest defeats Gompers has sustained during his long leadership. There  
was a turbulent demonstration after the insurgents had won the victory.

(International News Service.)  
MONTREAL, June 17.—President  
Gompers of the American Federation  
of Labor is engaged today in a bitter  
fight to prevent the Federation con-  
vention from endorsing the Plumb  
plan of government ownership and  
democratic control of the railroads.

There were exciting scenes in the  
convention when Secretary Frank  
Morrison and fourth vice president  
William Green openly espoused the  
Plumb plan. This is the first time in  
fourteen years that Morrison has taken  
issue with the executive council.  
J. E. Brown, of the national com-  
mittee for organizing steel workers,  
declared today that the committee  
would abandon its work.

## HARDING'S DESK IS SWEEP CLEAN

**NOMINEE NOW READY TO DIS-  
CUSS PLANS FOR COMING  
CAMPAIGN**

(International News Service.)  
WASHINGTON, June 17.—Sen-  
ator Harding, republican presidential  
nominee, has swept his desk clear of  
important letters and was free today  
to take up the many suggestions that  
have come to him on plans for his  
campaign. Senator Harding is deter-  
mined that he will not be forced into  
any declaration on important is-  
sues before he outlines his views  
specifically and in detail in his letter  
of acceptance.

Senator and Mrs. Harding were the  
principal actors in moving picture  
films made of their home today.

## BRITAIN OBJECTS TO MARINE LAW

(International News Service.)  
WASHINGTON, June 17.—Inter-  
national negotiations, probably before  
the Hague conference, will be de-  
manded by Grant Britain before she  
accepts the provisions of the Jones  
merchant marine legislation, accord-  
ing to views of shipping men and of-  
ficials of the state department today.  
Provisions of the law which give  
Americans preference rates on ship-  
ments by rail or water to American  
seaports, will be one of the principal  
subjects of attack.

## German Cabinet Remains Minus

(International News Service.)  
LONDON, June 17.—With the new-  
ly-elected assembly summoned to  
meet one week from today, Germany  
is still without a cabinet, according  
to advices from Berlin today.

## FATHER OF KIDNAPED BOY IS FLEECE OF 12,000 DOLLARS

**Anxious Parent Deposited Ransom Money But  
the Child Was Not Returned.**

(International News Service.)  
NORRISTOWN, Pa., June 17.—  
Chas. H. Coughlin, father of Blakely  
Coughlin, who was kidnapped on the  
morning of June 2, today stands  
swindled out of \$12,000, and his child,  
"Baby" Coughlin, is still missing. The  
baby was kidnapped. Later a man  
called over the telephone represent-  
ing himself as the "crank" and said  
that \$6,000 must be produced for the  
child. Mr. Coughlin demanded that  
they mail a picture or some clothing  
of his child to guarantee that they  
really had the boy. A few days later  
he received notice that since he had  
seen fit to spurn the first offer that  
the price of the child's return had  
been doubled. Mr. Coughlin then  
rode to a designated place with a  
friend and left \$12,000. After 48  
hours the child has not appeared.

## LABOR FEDERATION DELEGATES SHOWN THE GREAT SHADOW, ALSO HEAR WALSH

Radical Element Takes Excep-  
tion to Lesson Taught by  
Movie Story.

**IRISH QUESTION IS  
REAL LIVE ISSUE**

Lewis Says Miners Not Commit-  
ted to Nationalization of  
the Mines.

(By J. E. Blair)

MONTREAL, Can., June 14.—(By  
Mail)—Exactly at 12:30 Saturday,  
the first week's convention of the  
American Federation of Labor came  
to a close. The morning session  
passed without incident. But the  
night before two sensational meetings  
were held which were largely at-  
tended by the delegates. The second  
meeting began at 11 o'clock p. m., and  
was a special picture to which all  
the delegates had been given a formal  
invitation. The "Great Shadow" was  
the title of the picture, and it was  
written by the Labor Council of  
Montreal, that had its approval.  
The strong argument of the picture  
was the reasonableness of Labor  
when left to its own devices, but how  
easily swayed by any element which  
desires to use it for its own purposes  
and gain. When the last scene was  
over, nearly two o'clock Saturday  
morning, some of the so-called radical  
elements took exception to the  
teaching of the picture. Such said  
that the implication that the so-called  
bolshewiki element operated in the  
dark was absolutely false; a state-  
ment on the street to this effect by  
one described as a radical was re-  
sented by one of the Canadian labor  
unionists, who told the man who re-  
minded the play to say what he had  
said to those who wrote it, and not  
speak in such a general way. John  
MacDonald, the hero of the play, and  
a regular labor leader, in one of the  
scenes, forcibly removed an agitator  
from the speaker's platform who had  
attempted to trample upon the Amer-  
ican and British flags. This action  
of MacDonald was heartily cheered  
by the delegates, but the radical pre-  
viously referred to said that it was  
not true that the radical element was  
given to insulting national emblems;  
he said that what his people objected  
to was, that what the flags really  
stood for was not being actually car-  
ried out in practice by the govern-  
mental officials. This objection in fur-  
ther conversation declared that patch-  
ing up agreements between labor and  
capital was a waste of time, and said  
that the absolute nationalization of  
all business the only solution of in-  
dustrial problems. The play showed  
a likeness of Lenin as appearing in  
secret conclave before enemies of the  
legitimate labor unions. Then fol-  
lowed a picture of a nation-wide  
strike which resulted in many deaths,  
one of which was the death of Mac-  
Donald's little daughter who had been  
run over by a runaway team, the  
driver of which had gone on strike.  
The conclusion of the play was that  
MacDonald and his associates got con-  
trol of all the labor forces, and  
through his effort a truce of twelve  
months was agreed to by the workers  
and the employing classes. Mac-  
Donald was represented as making a  
number of speeches, all of which im-  
pressed the absolute necessity of  
larger production if the North Amer-  
ican continent was to escape the con-  
ditions now prevailing in Russia.

The other sensational meeting of  
Friday night was held at the Windsor  
Hotel auditorium, and was addressed  
by Frank P. Walsh, of New York,  
who strongly urged that the Amer-  
ican Federation of Labor convention  
recognize the Irish government, as  
now headed by de Valera. Mr. Walsh  
aroused great enthusiasm, and had  
the vote been taken Friday it would  
have been entirely favorable to Mr.  
Walsh's wishes.

As it is, the prediction is freely  
made that the Irish resolution will  
pass this convention as it did the one  
in Atlantic City last year.  
Glenn E. Plumb addressed the con-

## REPUBLICAN TICKET CONSIDERED STRONG IN EAST, WEAK IN WEST

—Judge John C. Eyster

Local Man Says Financial Outlook is for Tight  
Money and Continued High Prices.

## PLATFORM TIMBER AT SAN FRANCISCO QUITE PLENTIFUL; LIQUOR BIG ISSUE

Main Planks, However, Will be  
Brought From Capital  
by Glass.

**NATIONAL COMMITTEE  
WILL MEET FRIDAY**

Tumulty Denies That President  
Will Have Direct Wire  
to the Hall.

(International News Service.)  
SAN FRANCISCO, June 17.—  
There will be no dearth of material  
for the construction of the democratic  
platform. With but a fraction of  
the delegates and national commit-  
teemen on hand, enough material has  
already been offered to erect one of  
staggering size. Of course the main  
timbers of the platform will come  
from Washington in charge former  
secretary of the Treasury Carter.

The wet and dry issue looms as the  
big controversy before the platform  
committee and perhaps later before  
the convention.

There is more convention talk  
among arriving delegates on this sub-  
ject than on any other issue. The  
arrival of Wm. J. Bryan and Govern-  
or Edwards, leaders of the two camps  
interested in the prohibition issue,  
is expected further to enliven things.  
Labor, suffrage and Irish leaders do  
not intend to pass up any opportunity  
for their cause before the democratic  
convention.  
With the first get-together meeting  
of the national committee set for  
noon Friday, members of that body  
are arriving from all parts of the  
country.

## HEALTH SURVEY IS NOW BEING MADE AT FAIRVIEW; TO COVER THE COUNTY

Two Inspectors Have Been Ad-  
ded to the Personnel of the  
Health Department.

**DR. DERSHIMER HERE  
GIVING CO-OPERATION**

First Monthly Report is Sub-  
mitted by Dr. Burton Austin,  
Health Officer.

The health survey of Morgan coun-  
ty, which began in the Twin Cities,  
has now extended to Fairview, and  
during the summer months will  
branch out to cover every section of  
the county. Announcement to this  
effect was made today by Dr. Burton  
Austin, county health officer.

Two student physicians—Dr. W. B.  
Talbot, of Fayette, and Dr. M. E.  
Black, of Hartford—have been ad-  
ded to the personnel of the health de-  
partment as sanitary inspectors for  
the vacation months. They are now  
engaged in making a house-to-house  
survey in Fairview, and are empha-  
sizing the necessity for the improve-  
ment of sanitary conditions in heart-  
to-heart talks with the property own-  
ers. The dangers of the dry closet  
are being pointed out, especially.

Dr. F. W. Dershimer, director of  
the bureau of rural sanitation, is here  
for a few days and is co-operating  
with Dr. Austin in the prosecution  
of the work.

As soon as the Fairview survey is  
completed, the inspectors will move  
into the rural districts, and will visit  
practically every farm house in the  
county.

**Report Submitted**  
The first report of the new health  
department was submitted yesterday,  
and is as follows:

**Educational**  
Lectures delivered 4, attendance 42.  
Public 0, letters 52.  
School 0, Pamphlets 0.  
Special 4, Newspaper Articles 11.  
Personal conferences 60, Posters 0.  
Smallpox vaccination 2, Schools 0.

**Soil Pollution Work**  
Sanitary latrines built in county 2,  
towns 2, rural district 0.  
Specimens examined for Hookwork  
0, position 0, treatment 0.  
Field workers employed 1, days  
worked by 4, houses surveyed 0.

**Quarantine Work**  
Total cases reported 2, Quarantined  
2, visited 2.  
Disease and No. of each: Smallpox  
1, Scarlet fever 1.

**Miscellaneous**  
Inspections: Hotels 7, Cafes 30,  
Bakeries 2, Drug Stores 16, Barber  
Shops 13, Dairies 3, Total 71.  
Milk examination 0, water exami-  
nation 0, midwives licensed 0, hours  
of study 52, miles traveled 110.  
Remarks on special activities not  
provided for above, or on special dif-  
ficulties, etc. Inspections: Meat  
market 3, Milk depot 2.  
Pumping station.  
(Signed)  
B. F. AUSTIN.  
June 1, 1920.

## QUART OF WHISKEY CAUSES THE DEATH FORMER OFFICER

(International News Service.)  
BIRMINGHAM, June 17.—Deputy  
sheriffs are scouring the country  
in the vicinity of Lovesbridge, 4  
miles south of Bessemer, searching  
for an unidentified man who early  
this morning shot and killed George  
Crawford, a former Birmingham po-  
lice officer. News of the killing was  
brought to Bessemer by two negroes  
who said that a taxi-cab had been  
rented by two white men and that  
the men quarreled over a quart of corn  
whiskey. They said that an uniden-  
tified man drew a revolver and fired  
five shots into the body of his com-  
panion, and then fled into the woods.

## Whist Expert Was Not Murdered by Owner of Lingerie

(International News Service.)  
NEW YORK, June 17.—Every ef-  
fort to solve the mystery of the slay-  
ing of Joseph Elwell, wealthy tur-  
fman and noted whist expert, has  
proved fruitless. It was reported to-  
day by District Attorney Evans.  
The police have learned the name  
of the woman whose lingerie was  
found in the turfman's dressing room,  
and declared that she was not con-  
nected with his death in any manner.

## Butler to Support the Regular Ticket

(International News Service.)  
NEW YORK, June 17.—President  
Nicholas Murray Butler, of Colum-  
bia University "will give such time and  
energy to the support of the Hard-  
ing-Coolidge ticket as he can spare,"  
it was declared in a replay to Gen.  
Leonard Wood's statement in which  
he pictured Mr. Butler as "a fake  
and liar."  
"Political post mortems are futile.  
I am sorry Gen. Wood lost his tem-  
per. The facts as to his campaign  
funds are not of my making."

## Couple Arrested on Trespass Charge

Charged with trespassing and des-  
truction of property, Mr. and Mrs.  
John Black were arrested yesterday  
five miles east of Woodland by De-  
puty Sheriffs McGuthrie and F. M.  
Hamilton. They were released on  
\$250 bond.  
The charges are said to have been  
preferred by a man named Thomp-  
son, who, it is stated, had warned the  
couple against trespassing upon his  
property.

## Poland is Ready to Discuss Peace

(International News Service.)  
WARSAW, June 17.—"Poland is  
ready to enter into pour parlers with  
Russia, just as she was two months  
ago," said Gen. Pilsugski, command-  
er of the Polish army, in an interview  
today. "But we have no guarantee  
that our terms will be fulfilled by the  
soviet. The policy of Russia seems  
to be nothing more than to foster re-  
volution."

## Irish Raiders Apply the Torch

(International News Service.)  
LONDON, June 17.—A large  
amount of British military property  
at Waterford has been seized and  
burned by Irish raiders. The rail-  
way station at Mallow was destroyed.

**LYNCHING IS NOT SECTIONAL EVIL**

Any charge that the South has a monopoly on the lynching evil is easily disproved by a reference to American newspaper files. A careful scanning of these by the unbiased must bring the confession that the North is attaining the lead in the number of lynchings credited to its wild and woolly citizens. Duluth, in farthest north Minnesota, is the latest municipality to score with the hemp. It turned out in mass to execute three negroes charged with an offense against a white girl. So noisy was the demonstration that the troops were called out to restore order. All the talk of the lawlessness of the South has dwindled down to mere bunk. The same crime receives the same treatment the nation over. The sectionalists had just as well realize this and send the bloody shirt to the laundry.

**A WOMAN CANDIDATE FOR VICE PRESIDENT**

The democratic party may nominate a woman for vice president. So say the newspaper correspondents at San Francisco, who have already discovered a boom for Mrs. Adams, assistant attorney general of the United States. At any rate, the nation had just as well wake up to the fact that the fair sex must be taken seriously where political matters are concerned. The women vote is a factor that will have to be reckoned with in the presidential campaign of this year, just as it was in 1916. From the standpoint of expediency it is hardly possible that second place on the democratic ticket will go to a woman, for the "deadlier of the species" would much prefer to vote for a man, while the mere male looks largely to the triumph of certain issues or to the loaves and fishes of office. He is not sentimental so long as he can cast a secret ballot, marked and folded on the quiet. The Democrats would gain nothing by taking a chance on having the White House decorated with feminine frills and rouge. Consequently, they won't do it.

**Labor Federation Delegates Shown The Great Shadow**

(Continued from Page 1.)

vention Friday morning. Montreal papers stated that Mr. Plumb declared that United States railroads were dishonest, but according to his own statement after the address what he really said was that as long as the directors of railroads were chiefly interested in how much material they could sell to the railroads from other great corporations they were interested in the temptations they were under were too great. Mr. Plumb's plan was endorsed amid great enthusiasm, and he was given an ovation before he left the halls.

John W. Lewis, acting president of the United Mine Workers of America, when asked if the miners proposed to get the mines operated by a plan similar to the one of Mr. Plumb, said: "Constitutional limitations in our country present difficulties to the mines being operated according to the Plumb plan, as the titles to the mines rest with the railroads. It is true that the mine workers endorsed the Plumb plan as suitable for the operation of the railroads, but we have formulated no definite plans for the operation of the mines."

**The Passion Play.**

Accounts vary as to the date that marks the beginning of the Oberammergau "Passion Play." Some have it that the custom was instituted centuries before the thirty years' war, with a cessation during that period. Reliable chroniclers maintain that it cannot be traced farther back than 1634. Those Bavarian peasants made a vow that if the plague would cease, they would give the play every decade, a vow they faithfully kept until the sequence was broken because of the war.

**Somerville News**

Mrs. A. H. Pence was carried to Birmingham Saturday for an operation. She is reported as improving.

Mrs. W. O. Henderson returned home Sunday from Corinth, Miss., where she visited her brother, Tillman Crawford and family.

There was an ice cream supper given at the school house Saturday night with music and dancing.

Mr. and Mrs. Jas Winton and Walter Henderson were visiting in Albany, Sunday.

Quarterly conference of the M. E. church was held at Antioch. Elder Morris preached Sunday morning at Antioch. In the evening he delivered a fine sermon at Red Oak Grove.

Mrs. Lula Wade, Wilburn Wade and W. O. Henderson were in Decatur on business Tuesday.

Mrs. Dave Blackwell, Mrs. Cora Potec and son, Roy, are visiting friends and relatives here for a few days.

W. O. Henderson was elected manager of the Somerville Telephone Co. for the next eighteen months.

Mr. Will Meyer and Mr. H. L. Spencer and children were here Saturday.

Misses Weiman and Marion were here for the cream supper Saturday night.

The farmers have made every minute of the past few days' count. While it has been dry and warm, they have about all of their crops that are up cleaned nicely, and the low land about all broke and a good deal planted. With plenty to eat in the gardens, fried chicken and lots of milk and butter at home. Everybody seems happy once more.

Miss Enda Thompson has returned home from Nashville, Tenn., where she took a course in millinery.

**AMUSEMENTS**

**WILLIAM RUSSELL SEEN IN NEW FOX PICTURE**  
A photoplay with a theme of unusual dramatic power is "Shod With Fire," the new William Fox production, featuring William Russell, which will come to the Princess Theatre, today.

This beautiful love song of the plains, it is said, sings its way straight into the hearts of those who are in sympathy with lovers who must suffer and endure much before they attain their hearts' desire. Harold Titus wrote the story; J. Anthony Roach is the author of the scenario, and Emmett J. Flynn directed the making of the picture.

With Mr. Russell in the cast are: Helen Ferguson, Betty Schade, Robt. Cain, George Stewart, Nelson McDowell, and Jack Connolly.

**No Imitations for Her.**  
A young physician took his best girl to a local picture house. Advertisements were being thrown on the screen, among them this one: "Make them happy with a photograph of yourself at Christmas. Our shop, etc."  
The young man turned to his girl with the facetious remark, "Would a photo of me make you happy?"  
She shook her head. "I don't like imitations," she puffed. "I'm used to receiving real things."

**GAY WITH PLUMAGE OF BIRDS**

Members of Warlike Tribe of the Upper Amazon Remarkably Expert in Feather Working.

The most numerous and most warlike of the many native tribes of the upper Amazon and its tributaries are the Mundurucus, each of whose settlements has its own military organization, with barracks in which the fighting men sleep, their arms at hand, always ready for battle.

The Mundurucus are the most expert feather-workers in tropical America, the warriors wearing beautiful garments of bird's plumage, with rosettes of brilliant feathers on the forehead, or sometimes diadems of alligator scales. The "scepters" which the chiefs carry in their ceremonial dances are admirable works of art, being made by fastening upon a long wooden rod the white and yellow feathers from the breast of the toucan.

At its top such a "scepter" expands into a wide plume composed of the long tail-feathers of macaws and toucans. To preserve it from injury, the wand of authority is kept in a cylindrical case when not required for use on feast days. As a part of the costume, a crescent-shaped breastplate of turtle shell, so thin as to give out a clear note when struck, is worn—Pittsburgh Dispatch.

**FOIL DEATH-DEALING VAMPIRE**

West Indian Superstition That Seems to Have Been Borrowed From French Peasant Lore.

Superstitions of the most interesting variety are to be met with everywhere in the Caribbean islands among the negro population that was transplanted from Africa into the West Indies. In Grenada, where the Lougaroo, the French peasant has in easy going West Indian manner of speech become the Loogaroo, which is of the vampire class, whose desire is for human blood, sucked from a sleeping man, woman or child, there is a superstition that to keep it away from the huts of men it is necessary to sprinkle a good deal of rice or sand overnight in front of the door.

According to the superstition, the Loogaroo, keen on sucking human blood, stops and begins to count every grain before going any further, morning coming before the counting is completed. Thereupon the unhappy Loogaroo must retire. In Jamaica they do not talk of Loogaroo, but there are plenty of dupples. Duppy, roughly speaking, means ghost, but there is a slight difference, for the duppy can walk the earth, while the spirit or soul remains in its appointed place.

**COUNTRY OF MIXED RACES**

Best Qualities of Three Great Peoples Declared Mingled in the Dwellers in Alsace.

As we came out of the square (at St. Amarin) little boys were bringing in armfuls of wood for their school-room stoves; others were already noisily scampering home for dinner in the crisp, sawdusty air; straight columns of smoke from many chimneys evoked women standing about noontime fires; there was a homely human feeling about it all.

As I went through the school it seemed to me that the types of the children were modified in two ways. Inclining now toward the elongated head, with pointed chin, dark hair, dark eyes and mantling color; now toward the round-headed, square-jawed, blond type, with full, dreamy, blue eyes. But under these modifications one felt that there was a persistent something, that was their own, neither German nor French nor anything else, for all the mingling; the Alsatian root and stem, with an inalienable, peculiar life mounting in it, its very own, its race gift.

And this essential gift, this rich, diverse inheritance, had been received from each point of the compass. From the south, through the defiles of the Alps, the Great Latin traditions had infiltrated. From the north and east had come Germanic thought, with its mystical reactions, its metaphysical inclinations, its marvelous legends, and its romantic chronicles of gods and half gods. From the west, from Gaul, came grace and courtesy and the deathless wish for liberty. Was over a people more richly endowed?—From "Alsace in Rust and Gold," by Edith O'Shaughnessy.

**Old Oil Well.**  
On a trip through western Virginia, George Washington came upon what he called an "oil spring." He was so struck with the possible usefulness of this oil that in his last will he called the special attention of his trustees to the matter. Right here, it might be said, was the first awakening of interest in petroleum production in the United States—an industry the development of which gave us an output of 556,000,000 barrels in the last year.

Sour belching and a burning sensation in the throat is a symptom of indigestion, and indigestion leads to serious diseases. Take Prickly Ash Bitters, it corrects the digestive trouble, purifies the stomach and makes a man feel good. Price \$1.25 per bottle. Sold by all druggists.—Advertisement.

**ATTENTION**

I have several good territories open in this section for capable men to represent a line of MADE-TO-MEASURE CLOTHES, selling "direct to wearer."

Call for Mr. Edgar, Hotel Lyons, June 17th and 18th, Hours 9:00 a. m. to 12:30 p. m., 2:00 p. m. to 6:30 p. m. and evenings.

**LET THE ALBANY-DECATUR DAILY JOB DEPT. FIGURE ON YOUR PRINTING**

*I'll tell the World that Hauger Prices Beat them all.*

**\$17.50 TO \$37.50**

**Why Hauger Prices Are Less**

than so-called "sale-prices." Most stores could reduce their selling prices 20% and still be considerably higher than Hauger's regular prices. Other stores claim it costs them more to do business because of high rents, credit accounts, delivery service, etc., than our entire gross profit. Is it fair to add so much profit to a suit of clothes that the price can be reduced from \$50 down to \$35? Isn't a better policy to mark the price \$35 before any are sold and stick to it? Right or wrong, that's our policy. It always has been and always will be. Big values built our business and big values are continually increasing it.

Canal Street Room  
Novelty Shower for Miss Godbey (5 p. m.)—  
Mesdames J. W. Cunningham and J. H. Calvin

Mrs. J. W. Holt and granddaughter, Miss Bertha Spangle, leave for Humboldt, Tenn., on tomorrow.

The Young People's Missionary society of the Central M. E. church spent a very delightful day on a picnic at Fennell's Spring Wednesday. Games, contests and wading made pleasant pastimes for the morning. About one o'clock a bountiful lunch was spread, which was enjoyed by all. The afternoon was spent in playing ruck and story-telling. About four o'clock some friends drove out, bringing ice cream. This was very much enjoyed.

Mr. and Mrs. Harry Collier have returned home after a bridal tour to several northern cities.

J. D. McClannahan, of Hartselle, was in the city on business this week.

O. W. Bailey, of Somerville, has returned to his home, after visiting in the Twin Cities.

A. Holguin, of Athens, was in the city Thursday.

Mrs. B. H. Drew and daughter, Martha, of Macon, Ga., the expected guests of Mrs. Daniell, have delayed their visit until next week, on account of illness.

### MAKE SKILLFUL AUTO DRIVERS

African Natives Conduct Vehicles Along Jungle Tracks After Short Term of Apprenticeship.

It is natural that since automobiles have found their way into every part of the world, the drivers would vary in appearance, and in attire or lack of attire, according to the customs of the countries in which the motor car is called to do service. If you were to walk along the road leading from the west coast of equatorial Africa several hundred miles into the interior, for instance, you might see a motor truck, plowing through the jungle, and in the chauffeur's seat, driving with peculiar and cheerful abandon, would be a west African native. And from the appearance of his driver's uniform, it would be evident that the high cost of clothing would bother him not one whit. These natives come fully-fledged chauffeurs within three or four weeks from the time they see their first motor vehicle. The trucks, of which there are about 200, maintain regular schedules as feeders to a large steamship line plying between west African ports and Europe and America. They are loaded with men and supplies on the inland trips, and with cocoa products, palm oil, hides, and rubber bound for the coast.

When you want first-class job work, try us.

### ICE CREAM SUPPER

## For Your Convenience— New Ever-Tyte Service

We have established Ever-Tyte Service Stations in this city where you or your repair man can get Ever-Tyte Piston Rings of any size without delay.

### Thousands now use Ever-Tytes

Motorists use Ever-Tyte Piston Rings because they give more power, with less gas and oil.

The Guaranty Bond stands back of every Ever-Tyte Ring. If it fails to give absolute satisfaction, you get your money back, any time within a year.

### Scientifically constructed

The Zelnicker Right Angle Interlock and Ever-Tyte 6-point Circular Expansion absolutely prevent the leakage of oil and gas—higher compression—fewer carbon troubles.

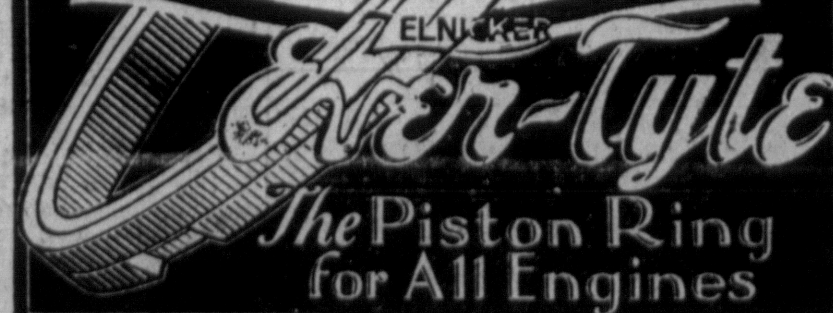

Have your repair man put Ever-Tytes in immediately.

AS LONG AS THE TIRE LASTS  
our vulcanizing will last. Our work becomes an integral part of the tire fabric, as much so as the original wrappings at the factory. Vulcanizing that's built into the tire, as ours is, cannot blow out; it can only wear out when the shoe wears out. Tire cost is going up. Double your tire mileage with our vulcanizing.

FRANK P. LIDE  
"Instant Service"

### Parasite Spreads Disease.

A peculiar disease that is still confined chiefly to certain river valleys of Japan, but suggests possibilities of breaking loose as a widespread epidemic, has been a subject of recent investigation. It is known as "tsutsugamushi," and is transmitted by the "akamushi," an insect parasite of certain field mice. It is a fever strikingly similar to typhus and Rocky mountain spotted fever. The investigators have learned that its chief occurrence is in the months of June to October, which is the time of development of the insect carriers, and the season when the peasant victims of the disease are brought into contact with the mice. The mortality, though very variable, sometimes exceeds 50 per cent. Under existing conditions, bites by the insects cannot be wholly avoided, and cutting out the bitten part does not prevent the spread of the virus, while such remedies as iodine, mercury, arsenic, quinine and dyes have proven ineffective. The only hope of stamping out the disease seems to rest in the extermination of the field mice.

### Repairing U-Boat Damages.

If British shipbuilding has not yet reached pre-war figures the world has done wonderful things in ship production in the last twelve months. The total tonnage launched was 7,144,549, according to Lloyd's Register, and the British share was 1,620,000 tons. The feature of the returns is the expansion of shipbuilding in the United States and in Japan. The former appears at the head of the table with 57 per cent. of the world's output, and more than twice the tonnage built in the United Kingdom. Japan, with 611,800 tons launched, has built more shipping in one year than it did in the 22 years to 1913.

### Far-Seeing Woman Reformer.

In noting the fact that Susan B. Anthony was born a hundred years ago, it is interesting also to remember that every considerable reform of which she was an advocate has come to pass, says the New York Sun. She fought for the abolition of slavery, for total abstinence and for equal suffrage. Slavery disappeared when she was still in her most active years. When she died, in 1906, many of the states had agreed with her views on prohibition and votes for women.

### A Last Resort.

His Wife—Mercy me, Hank! You shavin'? I thought you was goin' to wear them whiskers for always.  
Mr. Longbrush—I was goin' to, but we've lost two good table knives an' I've looked every place else for 'em.

## An Appeal To Water Consumers Please Do Not Waste Water!

For the past week there has evidently been an enormous waste of water by the abuse of the sprinkling privilege. We have adequate facilities for furnishing an abundance of filtered water for a community much larger than these two towns but we are now pumping an average of 140 gallons per day for every man, woman and child in the two cities according to the last census. The filtration plant was designed for an adequate supply of water but we are now forcing through this plant approximately double the amount of water which would be necessary if everyone would be considerate and reasonable.

We are doing everything in our power to keep a satisfactorily filtered supply of water for you but if the consumption continues at the present rate it will become necessary to pump raw water into the mains.

## For Your Own Sake Be Reasonable In the Amount of Water You Use

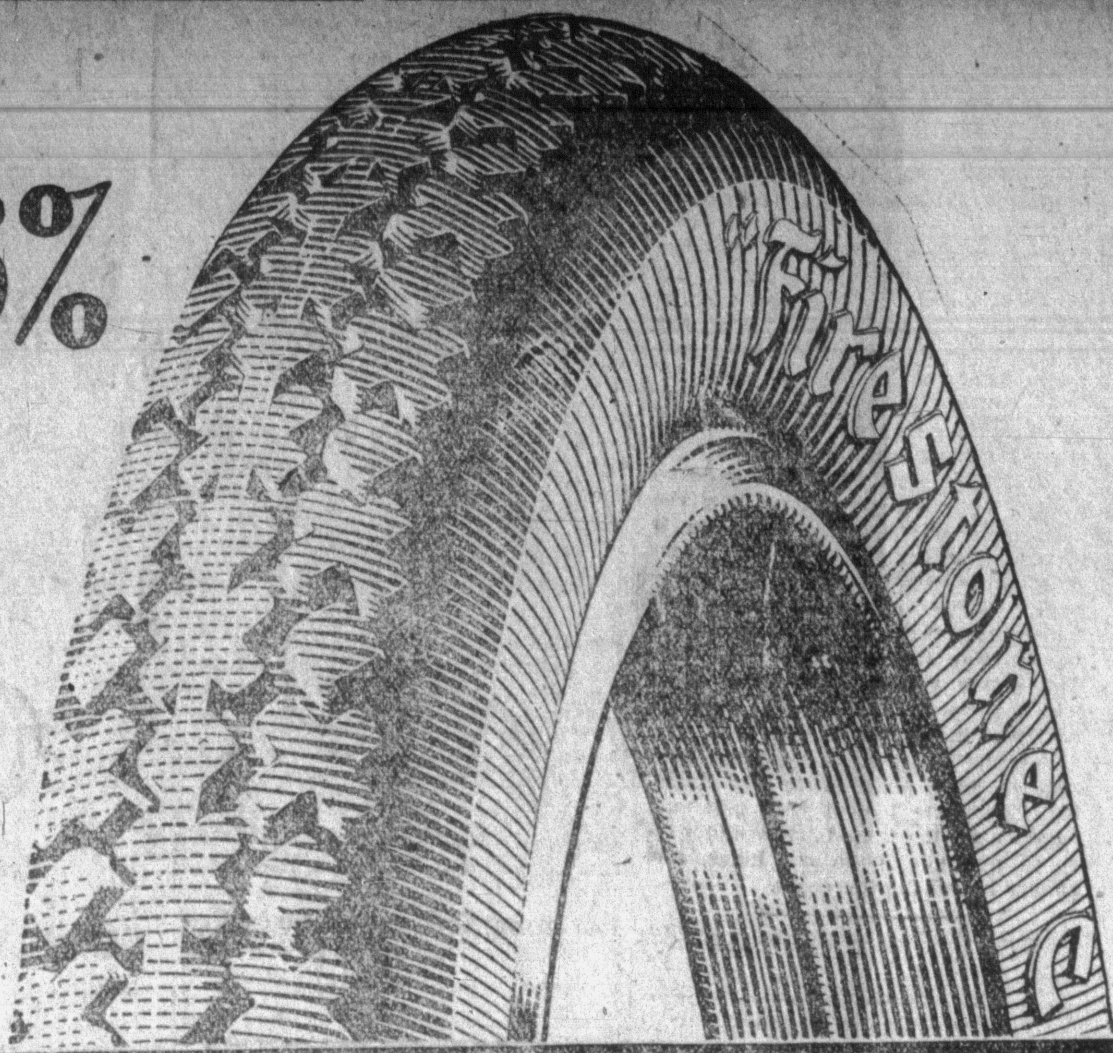

Yours for Service

**Alabama Water Co.**

Why **436%**

more Firestone Cord Tires sold from November 1st to April 30th than for the corresponding period last year—more than five to one.

Because five men are buying Firestone Cords for every one that bought last year—or because the men who tried a Firestone Cord last year are equipping all 'round, including spares, this year.

Because the Firestone Cord Tire, first of the new standard oversize, proved the extra value in more material, greater air capacity—more mileage for your money.

**Because, last year's pioneer is this year's leader!**

# Firestone

At the Delite Theatre Tomorrow

Commander + ANGELINE BOOTH  
of the Salvation Army who appears in  
"FIRES OF FAITH"  
A Paramount Picture

#### THREE FINE PLAYERS SEEN TO ADVANTAGE IN "FIRES OF FAITH"

Catherine Calvert, Ruby de Remer and Eugene O'Brien in Cast

Independent of its heart interest, splendor of production, beauty of scenes and artistic finish, "Fires of Faith," a superb Paramount picture, which will be shown at the Delite theatre tomorrow has a cast of exceptional power. Eugene O'Brien, Ruby de Remer and Catherine Calvert ap-

pear in three of the leading roles.

The story deals with a young woman who descends into the slums and who is reclaimed to become a Salvation Army worker in France. Eugene O'Brien is seen as an aviator who after scoffing the Salvationists learns their real worth and becomes one himself. The narrative is a thrilling one and the love interest is most captivating. Theodore Roberts, Herbert Standing, Edythe Chapman, Charles Ogle, Pat Moore, George Anderson, Lucille Ward and others are in the cast.

#### MANY ROADS TO KNOWLEDGE

For instance, Impudent Fake Resulted in Opening Up the Field of Electro-Therapy.

Along the road that leads to knowledge are scattered many fake-shops, which as a rule do a flourishing and profitable business. For the chief weakness of the human mind is credulity.

But by curious paradox, the foolishness factories every now and then produce something that proves of substantial usefulness to science.

For example, in New England many years ago a man named Perkins invented what he called a "magnetic tractor," for drawing diseases out of

folk. It was shaped like a pair of compasses, with one leg of silver and the other of copper. When the two points were passed over the afflicted part of the body the instrument was supposed by some electrical means to alleviate or cure the trouble.

The "tractors" undoubtedly did benefit many people; also Perkins, who sold them for \$5 apiece. They made such a sensation that scientists took the matter up, investigating it thoroughly and proving that imagination did the work. Blindfolded persons were relieved of pain by the contact of a couple of pointed sticks of wood, which they mistook for the instrument in question.

The whole business was plain foolishness. Nevertheless, the interest it awakened led to the first opening up of the field of electro-therapy, discoveries of which have proved of such immense importance to medical science.

#### WAS AHEAD OF HIS TIME

Peter Heulein, Who Made the First Watch, Accused of Witchcraft and Thrown into Prison.

There is in existence today a letter dated April 22, 1527, from Martin Luther to Father Frederick Pistorius, the last abbot of St. Aegidius in Nuremberg, in which he thanks the abbot for the gift of a watch, and adds: "I feel compelled to become a pupil of our mathematicians in order to understand this unique timekeeper." Never before had he seen such an object.

As he was familiar, with clocks, what he meant, evidently, was that the time indicators on the clock were different from those on the watch which had been given to him. It is quite probable he had in his possession the first watch made by Peter Heulein, or at least one of his first ones. This Peter Heulein was a blacksmith and locksmith and devoted his time to mathematics and watchmaking, for which he was thrown into prison charged with witchcraft, which was then one of the easy ways of disposing of a rival or of a person who did things out of the ordinary.

But Peter persevered, and the name of Heulein and Nuremberg is preserved by a monument in his native town.

#### New Bells Made Like Old.

We have often heard of the beautiful silver tone of very old church bells in Europe and some have even been bought at a great price and brought to America. It was supposed that after a bell had rung regularly for one or two centuries some mysterious quality was developed, and the beautiful tone could be acquired in no other way. An ingenious American studied the problem, however, and decided that the silver tone was simply due to the fact that the clapper of the bell had worn itself and the bell by continued striking, until the two fit closely together and that the shape of the metal and nothing else determined the tone. He began to make bells by casting them so that the clapper and the bell fit each other properly, and the mellow silver tone was obtained at once. Today we are manufacturing such bells and selling them abroad.—Boys' Life.

#### Lizard's Eyelid Transparent.

There is a lizard living in the Transcaspian desert that has the lower eyelid fused with the upper: it is transparent, and like a window, lets in light, but excludes sand.

#### FORCED TO BECOME PIRATE

Great-Grandfather of President Fillmore Coerced Into Sailing Under the Black Flag.

John Fillmore, great-grandfather of Millard Fillmore, the thirteenth president of the United States, was a pirate, though he was a pirate in spite of himself. The story begins with the first quarter of the eighteenth century, when the freebooters, Bluebeard, Low and Phillips, swept the Atlantic coast from Jamaica to Newfoundland. Phillips captured the Dolphin of Cape Ann, a vessel commanded by Andrew Harriden.

Harriden discovered among the pirates' crew two young men, John Fillmore and Edward Cheesman, whom Phillips had captured and made pirates against their will. They had determined either to escape from the pirate's clutches or to capture his vessel and bring him and his crew to justice. They fixed an appointed hour for making the attempt at escape, after reaching an agreement with Harriden.

The signal was given when only three were on deck, one of whom was Phillips. One of the men was thrown overboard, and the other two were killed. This was done while the crew was below in the hold of the ship. The captors then sprang into the hold and placed the rest of the crew in chains, steered the vessel for Boston, and arrived there May 8, 1724. Two of the pirates were hanged, while Fillmore, Cheesman and his confederates were acquitted.

#### FORESEE APPROACH OF DEATH

Writer Tells of Instances Where Animals Evidently Dissolution and Feared It.

I am perplexed at the way in which the lower animals sometimes have a premonition of death and fear it, while at other times they appear to be perfectly indifferent to death.

I have known a dog to beg not to be taken on a railway journey, when usually he used to dance about with delight, when he saw these preparations being made. On the occasion on which he exhibited distress he slipped off the platform, was run over and killed.

I have known a horse who was a very free jumper refuse obstinately a snuff fence and, when his rider forced him over it the horse broke his back.

A bullfinch—not a pet, but merely one of a cageful of birds—dropped down screaming; I took him out and so long as he lay in my hand he was quite quiet, but he screamed if I attempted to put him back on some cotton wool. He lay in my hand for a quarter of an hour and died quite quietly.

I have had a horse refuse to pass under a tree under which he had passed every day for years. It was a perfectly calm day. I drove him round the tree, and as I did so a big branch fell upon exactly the spot on which we would have been if I had not let the horse go round.—From the Continental Edition of the London Mail.

#### Must Earn Nature's Favors.

Nature will not reveal her beauty, her joy, her splendor, her magnificence or her sublimity to the selfish or the hurried soul. She thinks too much of her great treasures of marvelous mystery to fling them out to the penurious, greedy, hurried human being, to the casual eye, to those who are rushing along at railroad speed. No one can successfully woo and win her who is not willing to study her, take time to observe her, and listen to her voice. She tells her secrets, reveals her mysteries and beauties only to those who know how to wait, who take time to think, to ponder; to those who can appreciate and love these things well enough to spend time with her.—Orison Swett Marden in Chicago News.

#### No High Cost of Clothing Here.

When a hole is worn in tapa cloth it is only necessary to moisten the edges and beat them together. Tapa cloth was, once woven or pounded into shape in many parts of the South Sea Islands. It is made of the barks of the banana, breadfruit or mulberry. The rough outer bark is first scraped off and the inner fibers are beaten to gether and allowed to ferment. So fine is the texture of the cloth that one would never imagine it had been prepared in this crude manner. It is bleached to a dazzling white color by the sun, and when made into garments is practically indestructible.—Boys' Life.

#### Manhattan in the Indian Tongue.

We had a sad shock the other day when we learned from one of our learned clients that Manhattan, in the Indian tongue, is said to mean "The place where they all get drunk." According to William Loring Andrew's book, "The Bradford Map" (1893) shown by James F. Drake, the native name was coined in happy memory of the greatly regrettable revelation that transpired when Peter Minutemen (we think it was) put over his deal with the Indians with the aid of a flagon of schnapps. We trust Mr. Anderson will take immediate steps to have the name of the island changed.—Christopher Morley in New York Evening Post.

#### Sure Thing.

"I told Jiggers that if he kept indulging in that absurd fad of his he would be stung."

## DO BRUTES' SPIRITS RETURN?

Abundance of Testimony Seeming to Prove That Ghosts of Animals Have Been Seen.

With such quantities of spirits running around loose, why not a few repenting departed animals?

There is plenty of testimony indoors and out. In India there are ghost elephants and ghost tigers that haunt the jungle. And natives of that country are restrained from abusing animals by a belief that the phantom of any mistreated creature will surely come back to bring misfortune to the offender.

Andrew Lang quotes a well-known naval officer as speaking of an occasion when the latter was visiting at the country house of a friend and a well-known bark was heard outside the door of the room where the two men sat.

"Why, there's old Peter," said the officer.

"Peter died since you were here last," replied his friend.

A fox terrier that was in the room whined and trembled violently. The door was pushed open and the pad-pad of a big dog's feet on the floor was heard. No dog was seen, but the invisible ghost of one walked to the hearth, shook itself and then flung itself heavily down, the single of its collar being distinctly audible.

**A Whole League in Himself.**  
This puzzle in nationality has the marines guessing:

Louis C. Minette, accepted for enlistment in the United States marine corps at Tulsa, Okla., said that his mother was an American who married a Frenchman in Italy. He was born on a ship flying the Spanish colors while lying in the English channel. At the age of five his parents died in Sweden and he was adopted by a German who brought him to the United States. His adopted father is not a naturalized citizen.

"Would you class him as 'The Man Without a Country'?" the recruiting sergeant was asked.

"Man without a country nothing!" said the sergeant. "I'd class him as a League of Nations."

## Athens News

The Epworth Leaguers, who remained to visit friends, left for their respective homes Monday afternoon all loud in their praises of the splendid time spent in Athens. Great good was done at the conference, among other things, a fund was pledged to bring to the College this fall a Japanese and a Chinese girl to be educated for work in their own mission fields. There was an enrollment of 450 in attendance, counting the Athens people, but the very hot days prevented but a very few Athenians from attending.

Miss Emily Irvine, of Hantaville, has been visiting the Misses Hine and quite a few social functions were given for her during her very short stay.

Mrs. R. B. Stonestreet has returned from a visit to her daughter, Miss Cora Lee in Birmingham much improved in health.

Mrs. Mattie Warten and Mrs. Ida Sherrill have returned from Red Boiling Springs, Tenn.

The local chapter D. A. R. and U. D. C. came together in a union celebration of Flag Day June 14th. The meeting, which was very well attended, was held in the Commercial club room through courtesy of the club. Flags were placed at intervals up the stairways to the third floor, and a poster, "Follow the Flag" was at the club door and also at the door belonging to the chapters. The ladies passed to the chapter room first, where lovely fruit punch was dispensed by Misses Clay and Martin. Mrs. Aurora McClellan, regent of the D. A. R. chapter, presided in a gracious manner. The regular ritual service was read by the chapter, at the close of which, Mrs. McClellan gave a most beautiful historic paper on the flag from its birth to the present. Miss Snow Pryor gave a lovely poem by John Trotwood Moore. By request, Mrs. McClellan gave an original composition called the D. A. R. alphabet. It should be used in our schools as condensed history facts. The rooms were beautifully decorated with flags and vases of flowers these also carried out the flag colors. Besides the national flag, that was draped behind "the choir", there also hung a very handsome confederate flag loaned by our Veterans, and, between the two, Alabama's own flag. The afternoon was one to be remembered as a lesson in patriotism. Following is an original acrostic by Mrs. A. P. McClellan:

### ACROSTIC

June, blue-robed vestal of the God's  
owr queen,  
Our nation's hearth glows with thy  
opal light;  
Her heroes-marching and on parade  
unseen—  
Now hail this day, new-coined so  
bright.

Wake rolling timbrels 'neath the al-  
tar oak  
Adoring patriarchs consecrating, laid  
Down offerings on stone like truths  
to smoke.  
Ela, as angel guests, who sought its  
shade,

Keep watch o'er Man's Morning lande  
Evening's last smile, there reluctant  
leaves  
Yon faithful Columbia, who "Ruth-like"  
stands  
Eager, to garner the wasting sheaves.

Soft glances Orient Boaz at the glean-  
er young,  
Clad in sunset simarre, wove in  
Glory's loom.  
Harvesting heavy grain, brown re-  
apers sang  
At her dainty feet, like twin flags  
abloom.

Proud "Daughters" of a patriot race,  
The vista widens with successive  
suns,  
Each view reveals our Country's  
place,  
Reached only by her star-led sons.

Diviner task is yours, than tribute  
paid,  
A garment regal, for Priam's Queen  
Right royal Hepuba made

From fibre finer than the purple  
skein,  
Last wrought by Sidon women's skill,  
A taleful tapestry weave of strong  
God-like thoughts, and sublimer  
still—

Deeds, whose benisons to the world  
belong.

Above the flower-zone of our radiant  
sphere  
Your starry purpose run, oh flag  
for'er!

Aurora Pryor McClellan,  
Chapter Regent

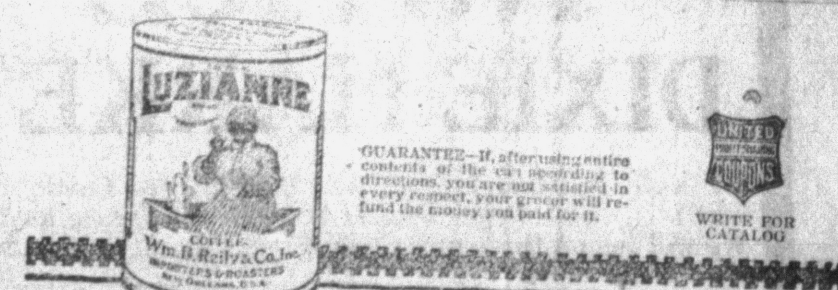

Not many chapters in the state  
has the honor to have as their Re-  
gent an ex-state Regent, as has the  
chapter at Athens.

The streets of Athens are fast im-  
proving with this weather.

Regardless of the complaints and

## Tire Prices

Some False Ideas About Them

Should an extra price buy an extra grade tire?

It should not. Any first-grade tire should be built as well as a tire of that type can be built.

Cord Tires cost more than Fabric, and are worth the extra price. Men who figure cost per mile are coming to Cord Tires.

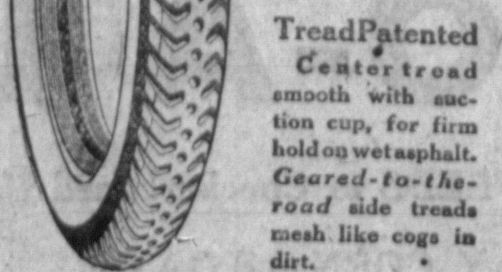

But any tire, Cord or Fabric, should be built for the utmost service which that type can give.

### Some Men Over-Pay

Some men pay extra prices, expecting extra mileage. Some pay under prices for an under-grade, and hope to save in that way.

Both are wrong. There may be exceptions—there are always freak tires. But countless tests have proved that Miller Tires at Miller prices, on the average, give the lowest cost per mile.

And Miller Tires, both Cord and Fabric, cost about the standard prices.

**Tread Patented**  
Center tread smooth with suction cup, for firm hold on wet asphalt. **Gear-to-the-road** side tread mesh like cogs in dirt.

### We Insist on This

There are three requirements which Miller Tires must meet:

First, they must average greater mileage, type for type, than any rival tire.

We constantly prove this. Eight machines in our factory run two tires each under rear-tire conditions. Each tire is run 650 miles daily by running extra-fast.

### Won Over 21 Makes

The Eldorado Stage Co. of Los Angeles tested 21 other makes against Millers on 12-passenger Packard Buses, weighing 8,600 pounds loaded. In this supreme test Millers won by long odds, on long-distance uniformity.

Here we constantly compare the best other tires with Millers. Also in ceaseless road tests. Thus, day by day and week by week, we are guarding the Miller supremacy.

**Miller Tires**

Winners in Million-Mile Test

Cords or Fabrics

**Gear-to-the-Road**  
Registered U. S. Patent Office

**HARRIS MOTORS CO.**

DECATUR, ALA.

### Every Tire Signed

We insist that Millers must be uniform. Each tire is signed. A record is kept of the maker, the inspector and the process.

If a tire comes back for adjustment we learn the reason. If the workman is at fault he is penalized. If the inspector overlooked a flaw he is held responsible. If any process or material is at fault, we correct it.

After years of this checking we've attained uniform tires. There are whole large cities from which not a Miller Tire came back last year.

### Treads Must Endure

Miller Treads, by our standard, must outwear the balance of the tire.

We have attained a tread which outwears rivals by 25 per cent.

Every day our tread stock is vulcanized, then tested, in our laboratory. We permit no variation.

Not a single Miller Tire with these new-grade treads has ever come back with the tread gone.

### Not 20,000 Miles

Countless reports come to us on Miller Cord Tires showing 20,000 to 28,000 miles of service. And tales of that kind are told everywhere, we learn.

But mileage depends on conditions—on size, care, load and road. Millers are uniform, but they are not used under uniform conditions.

In our factory tests we average 15,000 miles on Cords.

But a Miller Tire will outlast—almost always—any tire that you place opposite, no matter what it costs. Compare them under like conditions, and see what mileage modern tires can give.

You will gain a new criterion.

When you buy a new car insist on Miller Tires. Twenty car makers now supply them and there is no extra charge.

## HITS AND MISSES

By BARRETT SHELTON

We hope that the return of the "Georgia Peach" to the Detroit line-up won't stop the stride the Jennings men have hit. They have been the goats of the American eight quite long enough and here's looking at them for a first division berth.

Joe Coffindaffer has a horse shoe hung around his neck. Joe has clung with the Barons on that account alone as he has been as wild as a march hare all the way but thanks to this lanky gent he put the "Iron men" out in front a flying start.

The Keen Kiwanis Klub Kontests all diamond rights of the Huntsville Cherokees on Friday. Chief Klopton has nine men to pick from for the slapper as each baseman is a pitcher of note. One is as good as another as the Huntsville "red hopes" are fearfully S. C. L. The Big Chief intends to hold a pow wow after each skirmish and present a new line of battle to the foe.

The Majors are not in it with the minors when it comes to clean fielding records. In 1908 an outfielder playing with the Syracuse Club of the

Western half of the diamond kingdom, played in 131 contests without an error, accepting 172 chances in right without a bobble. Sherwood McGee's record of 1916 was put in the shade by this right gardener. Schroll is the man that hung up the record for future diamond aspirants to gaze upon. Schroll also batted in the .300 class.

Mobile, New Orleans and Little Rock are leading the Barons a merry chase toward ragdom and it looks now as if the pennant will be awarded with a hair raising finish.

The Vol trouble seems to be inability to hold a safe lead after pouncing on the opposing pitcher in the opening rounds.

Both St. Louis' pennant hopes are still whooping 'em up. They win each day as if they had been in the rag business ever since they joined the big show.

From all Newspaper reports Tennessee plays golf much better than baseball. The hurtling pill travels too fast to allow the mountaineer's cerebellum to get up speed to meet it.

"Dutch Mitwede is leading the Georgia State circuit by a long margin. Dutch Boy is batting .433 now and Lindale is next to the top having traveled from the bottom row in the last week. Mit got a home run, a three sacker and a single blow in four trips yesterday. Red Roberts is against Lindale in this series, playing left field for the Griffin outfit. Red put over one blow.

The Yanks started their drive again yesterday after losing three out of four to the speeding Cleveland representatives. If the Yanks meet the Indians again they may turn the tables for no one pitcher has struck out the "Big three," Bodie, Meusel and Ruth on a second choice.

The Barons overcame a tremendous lead for the second time in the Arkansas series and came through with flying colors. The Elberfeld clan isn't showing up much along about the eighth and ninth as it did in the first five or six bouts.

Memphis slid to fifth place yesterday when the baseball hopes of Crackerdom took two from them. The double win by Atlanta further endangered the props of the Chicks in fifth position for the Cracker aggregation is not far behind them. The Chicks are making a little record all their own now by falling five spaces in three days play.

Detroit fans rest easier this morning as it rained in the Tiger City and the Jennings outfit did not sink its claws into a fifth victim. Tiger fandom may have a nervous breakdown just as the fandom of Nashville suffered when the Vols took three straight.

New Orleans keeps rushing the Barons by defeating Cowboy Tomlin of the Ellam hurling staff. The Pels are going good now and by the end of the week hope to be leading Moley's men by a length.

The Mobile roster is getting to be very dangerous with the same club work as the Yank team uses. Tutweiler won yesterday's bout with two clean smashes out of the park and Priestie won his own day before by hitting into the bleachers for the four sack route.

Baron supporters are now strong for the Magic City crew. They haven't stopped yet and are leading the best in the league though New Orleans is but seven paces to the rear. The Barons punched out a victory over the Travelers yesterday by the mighty wielding of the wood by Mr. Ellis and Mr. Stewart. "Bing" Miller did all he could to save "Big Chief" Yellowhorse from his second defeat in the Baron series but to no avail. Miller has garnered four home run swats in this one series.

In answering a question concerning the sale of "Babe" Ruth TJ

is there in the U. S. Treasury?" He was told that the amount on a guess ran into hundreds of millions, he then said: "Well give me all that on an even break and I might take the offer under advisement."

## Falkville News

A light rain fell here today though not enough to stop farm operations. Much hay is down in the fields and it would have been quite a serious loss should it rained to any great degree.

Mrs. Phil Huff, of Lacy's Springs, accompanied by her daughter, Miss Lottie, visited her daughter, Mrs. R. O. Spiegel here this week.

A young child about 1 year old of Mr. and Mrs. Jim Powell near here died Tuesday night of Colitis. Burial at Frinedship on Wednesday.

C. W. Brown, of Falkville, left for Pecos, Texas, today on business. He will probably be absent several weeks.

## MOTHER SAW TRUTH AT ONCE

No Use Telling Her That Her Boy Had Made a Success in the World of Art.

He was a pianist, scarcely out of his teens. He had been sent abroad by wealthy friends for a four-years' course in his chosen art; had there after spent a year on the concert stage, and behind 200 or 300 newspaper reports of his success abroad he was now coming home.

When his train drew into the station and came to a stop the pianist, evincing the artistic temperament in his hair as well as in his manner, descended to the platform. At the same time the crowd of enthusiastic townspeople drew aside to allow his proud mother to be the first to welcome her son.

When she reached him, however, she gave a gasp and stood stock-still staring at him. The next moment she burst into sobs and fell on his neck. "Henry!" the good woman cried. "They told me you were doing so well over there and makin' money plentiful. My poor boy!"

"What's the matter, mother?" exclaimed the bewildered son. "What makes you doubt what they told you?" "Oh, Henry!" she cried, unappeased. "I can see how you've suffered. You haven't even been able to scrape enough money together to get your hair cut!"

## Some Consolation.

I was giving an evening party. One of the men was unable to come, but his wife came alone. I meant to convey to her that I was glad she had come, even though her husband could not, but what I said was, "I'm glad you came without your husband, anyway."—Chicago Tribune.
